Halaharvi, Kurnool, Andhra Pradesh 518360

Career Objective

Deliberated Civil Engineering graduate with 3+ years of core knowledge, 2 internships, and eager to contribute expertise to a progressive company.

Experience

- **Simpliforge Creations Pvt. Ltd. (Robotic 3D Printing)** *November 2025*

Senior Quality Control Engineer (Robotic 3D Printing)

- In-Process Quality Inspection: Monitored large-scale additive manufacturing runs layer-by layer, auditing bead geometry and adhesion to prevent structural delamination.
- Robot Studio Toolpath Verification: Utilized ABB Robot Studio to simulate and verify robotic print paths, slicing parameters, and calibration before live production runs.
- Defect Analysis & Metrology: Identified real-time printing anomalies to adjust extrusion parameters, and performed post-print dimensional checks against CAD tolerances.

- **Invigo Infotech**

Certificate Completion - Intern Online

- 12 weeks of online course in REVIT Architecture.

- **PLR Projects Pvt Ltd**

Intern Hyderabad, India

- 8 weeks of internship at best construction company in South India.

Education

- **JNTUA College of Engineering**

B-Tech: Civil Engineering Pulivendula, Andhra Pradesh, India

◦ Aggregate (B-Tech): 72.01%

- **Government Junior College for Boys**

Intermediate Anantapur, Andhra Pradesh, India

◦ Aggregate: 60.7%

- **Z.P.H.S High School**

Secondary Education Yemmiganur, Andhra Pradesh, India

◦ CGPA: 8.7/10.0

Projects

- **Community Service Project: Women Empowerment**

◦ Completed a community service project titled Women Empowerment.

- **Final Year Project (Team Member): Stabilization of Red Clay by Using Alternative Industrial Waste Material**

◦ Worked as a team member on stabilization of red clay using alternative industrial waste material.

Skills

- **Technical Skills:** Proficient in AutoCAD with experience in creating detailed architectural building plans; basic knowledge of Revit Architecture for 3D modelling and design development; beginner in STAAD Pro for structural analysis and design of various building types; SketchUp for 3D modelling, space planning, and material application for interior layouts
- **Soft Skills:** Strong verbal communication skills, consistently praised for clarity and effectiveness in presentations and competitions; highly developed research skills, honed through extensive academic coursework and independent projects; leadership and teamwork skills

Certifications

- **NPTEL - Municipal Solid Waste Management (IIT Guwahati)** *July 2024*
- **NPTEL - Air Pollution and Control (IIT Roorkee)** *January 2024*
- **Participated in IBM (edX) certifications**
